

Yaesu FTM-6000DR with RT Systems software and all Yaesu manuals printed on 8.5x11 24# paper.

Still in the box, un-used but looked at.

Sell \$250.00 with software. David, KL5EA 907-355-1483 text or call. Leave message

I ordered this by mistake but decided to keep it and save the return shipping and put it on MARA.

Additional info from KL6M:

This is a dual band (144/440MHz) 50 watt radio with receive capability from 108 MHz to 999 MHz.

This includes the aviation band where it accommodates Amplitude Modulation.

More info on this radio is available on HRO page and many others.
